

Standard Broadband with home phone – \$59 Offer ADSL Offer Summary – 1 February 2017

Service Overview

Service Description

ADSL is our standard broadband service. It's delivered over a copper line. We offer two plans for ADSL – 100GB or Unlimited Data.

The ADSL offer we have is:

An ADSL Broadband connection and Home Phone bundle.

You'll get a landline for your phone as well as your broadband. The landline connects you to the public phone network so you can make local, national, international and mobile calls from your home phone.

With your ADSL broadband you will have a variety of calling rates with Tolls free calling areas to choose from. For more details [click here](#)

Availability

Our ADSL Broadband services are available in almost all areas of New Zealand. As long as there are copper phone lines in your area and to your property, you will most likely be able to get broadband as well.

You can check availability of services when signing up via our website or by calling our friendly team on **0800 87 87 87**.

Service Charge

Monthly Data Allowance:

Unlimited

Charge: With Power

\$59 per month* for 12 months

Benefits:

- > Free wireless modem \$14.95 postage and handling applies

Traffic Management

Trustpower customers on unlimited data plans are currently not shaped in any way. From a connectivity point of view, unlimited data plans are treated in exactly the same way as limited or capped plans.

Generally our peak traffic times are between 3:30pm and 11:00pm. Customers may experience congestion during these periods.

At peak times there may be congestion on the network however, we are always working to provide the best possible service we can.

We do, however, reserve the right to apply traffic management policies to customers on unlimited data plans should this become required in the future.

Effects on other services

Your broadband service requires mains power to operate. If power is not available (e.g. during a local power outage) the broadband, and any services which run over it, may stop working unless you have battery backup in your home.

For phone services, if you have a corded phone which does not require AC power, this should work during power outages for some time.

This means services such as (but not limited to) Medical and Security Alarms or EFTPOS may stop working. It is your responsibility to check with the provider of existing services to make sure they will operate under such circumstances.

Other charges

This Double Play Package comes with a landline. Your local calls are free.

Any calls made to national, international, mobile and 0900 numbers will be charged at their standard rate. We do have additional calling packages available for National, Mobile and some international destinations.

For new phone connections, some additional fees may apply. A broadband wiring charge of \$150 may apply if, for example, you have an alarm or more than five phone jack-points in use.

Additional charges may apply for items such as non-standard installations, additional in-home technician work performed at the time of connection etc.

Please see our Phone and Internet Terms and Conditions. For more details [click here](#)

Disputes

At Trustpower, we value customer feedback and take care to address complaints.
