

# Ultra Fast Broadband with home phone – Fibre 100/20 Offer Summary – 22 June 2016

## Service Overview

**Service Description** Ultra Fast Broadband 100/20 is a faster broadband service for residential customers. When your house is connected to our network via a fibre optic connection, the throughput is both higher, and of a better consistency, than ADSL broadband. This means that fibre will deliver a faster speed.

The Ultra Fast Broadband 100/20 package we offer is:  
An Ultra Fast Broadband connection and Home Phone bundle.

With this package you'll get a landline and a phone number as well as your broadband. The landline connects you to the public phone network so you can make local, national, international and mobile calls from your home phone.

With your Ultra Fast Broadband you will have a variety of calling rates with Tolls free calling areas to choose from. For more details [click here](#)

**Availability** Ultra Fast Broadband is not available everywhere in New Zealand. Fibre is becoming available to more and more people and communities each day. To see if fibre is available to you, check your address at [click here](#)

Alternatively, you can check availability of services when signing up via our website or by calling our friendly team on **0800 87 87 87**.

<b>Other Requirements</b>	<b>Bundle Discount</b> To be eligible for the Bundle Discount you must sign up for a phone and broadband plan, as well as receiving power and/or gas from Trustpower.
<b>Traffic Management</b>	Trustpower customers on broadband plans are currently not shaped in any way. From a connectivity point of view, unlimited data plans are treated in exactly the same way as limited or capped plans. Generally our peak traffic times are between 3:30pm and 11:00pm. Customers may experience congestion during these periods. At peak times there may be congestion on the network however, we are always working to provide the best possible service we can We do, however, reserve the right to apply traffic management policies to customers on unlimited data plans should this become required in the future.
<b>Effects on other services</b>	Your broadband service requires mains power to operate. If power is not available (e.g. during a local power outage) the broadband, and any services which run over it, may stop working unless you have battery backup in your home. This means services such as (but not limited to) Medical and Security Alarms or EFTPOS may stop working. It is your responsibility to check with the provider of existing services to make sure they will operate under such circumstances.

### Other charges

These Ultra Fast Broadband plans come with a landline. Your local calls are free.

Any calls made to national, international, mobile and 0900 numbers will be charged at their standard rate. We do have additional calling packages available for National, Mobile and some International destinations.

Additional charges may apply for items such as non-standard installations, additional in-home technician work performed at time of connection etc.
